Health Regulations for All Poultry

Pursuant to the authority in Chapter 60 Section 3.2-6001, 3.2-6002, and 3.2-6004 (2017) of the Code of Virginia, the Board of Agriculture and Commerce hereby adopts the following rules and regulations relating to the control and eradication of pullorum disease and fowl typhoid in Virginia.

Definitions

Poultry – Live fowl, including chickens, turkeys, waterfowl and game birds, which are propagated and maintained under the control of any person.

Authority

Full authority for the control and eradication of pullorum and typhoid in poultry in this state is hereby vested in the state veterinarian; and without limiting the generality of the foregoing provision; it shall be the function, power and duty of the state veterinarian to administer the following provisions:

All poultry shown in public exhibitions in this state shall have originated from United States pullorum/typhoid clean or equivalent flocks or have had a negative pullorum/typhoid test within 90 days of the movement to the public exhibition.

A state veterinarian or his representative will be present to administer the pullorum/typhoid test. For further information or clarification of the rules, please contact the Poultry Superintendent or a health officer.

Avian Influenza

All poultry entered in the Chesterfield County Fair will be tested for Avian Influenza by the State Vets office.
